PROJECTS

Tai Chi Studio Two
https://github.com/okabe-san/tai_chi_studio_two.git
https://tai-chi-studio-two.herokuapp.com/

Application designed for a small business. Multi–tenancy implemented as visitor, user, and administration have different authorization. Part of group project: responsible for instructors and review routes.

HTML5, CSS3, Bootstrap, JavaScript, jQuery, Node.js, Nunjucks, PostgreSQL, Knex, express.js, Fortune Cookie API, Google Maps API

Guess What?
https://github.com/okabe-san/guess-what
https://okabe-san.github.io/guess-what/

This is a movie title trivia application. Learned how to work with an API and good data handling practices.

HTML5, CSS3, Bootstrap, JavaScript, jQuery, OMDb API

Pizza Delivery
https://okabe-san.github.io/pizza-delivery/

Website order form for a restaurant. Implemented form validation and input form conditional dependencies.

HTML5, CSS3, JavaScript, jQuery, Bootstrap, Form Validation

EXPERIENCE

Digital Freelancer | *Denver* | *2012 – 2016*

Architectural Visualization & Product Rendering

SINK COMBS | *Denver* | *3D Artist / Graphic* | *2013 – 2014*

Part of my duties include creating images and animations for client presentations or competitions.
